

I seek refuge in GOD, from Satan the rejected
In the Name of GOD, Most Gracious, Most Merciful

Sura 9 (part two)

Let now consider all first letter and end letter for 114 suras. The below table has first and end letter of all 114 suras.

1. End letters of Sura 1 to 9

End letters of suras has some remarkable points that protect Quran from change. Sura 9 has 127 verses and we know too that last verse of sura 9 ends with letter **Noon**.

Now consider end letters of sura 1 to 9:

Surano	End letter of sura	First letter of sura
١	ن	ب
٢	ن	ا
٣	ن	ا
٤	م	ي
٥	ر	ي
٦	م	ا
٧	ن	ا
٨	م	ي
٩	ن	ب

In such state we have :

ن ن ن م ر م ن م ن

It is interesting that Gv of the above 9 letters is 570(19*30).
God be glorified!! Is it coincidence??

2. First letters of Sura 1 to 9

In this state consider all first letters of suras from sura 1 to 9.in such state we have :

ب ا ا ي ا ا ي ب

It is interesting that Gv of the above 9 letters is 38(19*2).

3. Harmony of sura 9

Sura 9 ends with letter **Noon** and we know too that next sura (sura 10) starts with letter **Alef**. Now consider all suras that ends with letter **Noon** and first letter of next sura be **Alef**. In such state we have 19 suras.

Is it coincidence??? God be glorified!

Those 19 suras:

1,2,9,10,11,12,15,28,29,30,46,62,68,70,81,83,95,107,109

Like sura 30 that ends with letter **Noon** and first letter of next sura (Sura 31) is **Alef**.

فاصبر ان وعد الله حق ولا يستخفك الذين لا يوقنون [٣٠:٦٠]
الم [٣١:١]

The matter that confirm this matter is sura 109. This sura ends with letter Noon strangely because God has used **Deen** (دين) instead of **Deenie** (ديني). In this word God has deleted the letter **Ye** in word **Deenie** Only for protecting the above rule.

لكم دينكم ولي دين [١٠٩:٦]

God has used word **Deenie** in other verses (39:14) but it is used by letter **Ye**. This matter show us that God has specific aim for using word **Deenie** without letter **Ye** in sura 109.

[٣٩:١٤] قل الله اعبد خلصا له ديني

Sura 109 strats with letter Qaaf and ends with letter Noon. At another side only three suras starts with letter **Qaaf** and ends with letter **Noon** that are suras 23, 58 and **109**.

$$23+58+109=190(19*10)$$

This matter confirm strange using of word **Deen** in sura 109 again. God be glorified!!

4. Harmony of sura 9 and word God

Sura 9 ends with letter **Noon** and we know too that next sura (sura 10) starts with letter **Alef**. In unpurified Quran sura 9 has 129 verses that ends with letter **Mim**. This matter contradict many remarkable points in Quran. For example now consider all suras that ends with letter **Mim** and first letter of next sura be **Alef**. In such state we have only 3 suras. It is interesting that in these 3 suras there are **114(19*6)** word GOD. Is it coincidence??

Those 3 suras: 6, 47, 55

5. Noon as average letter

Sura 9 must ends with letter **Noon**. Gv of letter **Noon** is 50. In unpurified Quran sura 9 ends with letter **Mim** and all we know that Gv of **Mim** is less than gv of **Noon**. Now consider all suras that Gv of last letter of sura be less than Gv of letter **Noon**(50).

In such state we have **57(19*3)** suras like sura 110 that ends with letter **Alef** and we know that Gv of letter **Alef** is less than Gv of letter **Noon**.

Is it coincidence?!!

Those 57 suras:

4,6,8,13,14,17,18,19,20,24,25,33,34,35,41,45,47,48,50,52,53,55,56, 57,59,64,65,69,71,72,73,74,75,76,78,79,80,82,86,87,88,89,90,91,92, 94,96,98,99,101,102,104,105,110,111,112,113

6. Initialed suras and first and end letters

Now consider all 29 initialed suras. Total Gv of first and last letters of these 29 suras is **1843(19*97)**.

Is it coincidence!!

Praise be to God, Lord of the
universe.
